

Bitung-Bitung

MSY SEAHORSE

- ✓ GREAT COMFORT, LARGE CABINS
- ✓ OPTIMAL DIVING EXPERIENCE
- ✓ EXCELLENT FOOD
- ✓ FRIENDLY ATMOSPHERE
- ✓ FREE NITROX

The itinerary varies slightly between each cruise depending on weather conditions, currents, visibility and tides.

Lembeh Strait

The best muck diving in the world! Nothing less

Manado

Bitung

MAYU

TIFORE

Halmahera

Black tip, napo, big sweetlips, big red scorpion fish, nudis, crabs. Nice and quiet reef. Current at the surface.

Excellent reefs full of blooming orange soft corals packed with anthias, plenty of large soft coral covered bommies in all different colours and different species. Here we can expect some good currents which gives us the chance to see lots of reef sharks; black tip, white tip and grey reef sharks as well as many other pelagic

Ternate

TIDORE HALMAHERA

SIKO MAKIAN

TANATT

KAOJA

RUTA

BAGAN

MANDIOLI

Goraichi Islands

Patinti Strait

DAMAR

About this cruise in Covid-19 Time International Airport: Manado (MDC)

Wallacea Dive Cruise has offered the Ternate-Bintang itinerary for many years.

Your journey begins at the port of Bitung, in North Sulawesi. In compliance with Covid-19 protocols, Bitung is also the returning point after your dive journey throughout the Southern Halmahera. This is good news as you can avoid Hotel quarantine. Jangkar, the Indonesian Liveaboard Association has negotiated with the Indonesian Government so that quarantine can be done onboard our boats.

Divers, from anywhere in the world, (while only 19 nationalities are allowed to enter Bali) must be fully vaccinated and PCR Tests need to be administered upon arrival and before departure. Other than that, no additional protocols will affect your dive trip and Wallacea Dive Cruise will also help to arrange visa requirements as part of your dive package.

About your dive:

No need to recall the Lembeh strait as the number one macro diving destination in the world.

You will explore the most remote and pristine dive locations on the planet. Your liveaboard dive experience in Halmahera will include: Wrecks, hard coral, muck dives, volcanic rock, caverns and swim-throughs, a full range of diving throughout your dive cruise.

Halmahera is the largest island of the Maluku's. It is Tropical and covered with lush Indonesian tropical forests. Located in the heart of the Coral Triangle, South Halmahera marine ecosystem and rich biodiversity, with exceptional flora and fauna is still a secret gem with so much to be discovered. Halmahera is the largest island in the whole Maluku Islands. Tropical, it is covered with lush forests. Everywhere majestic volcanoes come out of a calm sea and the deep forests of Halmahera have remained intact. Its pristine beaches of white sand and coral reefs offer exceptional conditions for scuba diving and snorkelling.

What to expect: big fish such as Hammerhead, barracuda, oceanic whitetip, manta.

Goraici islands and its pristine white sandy beaches with an amazing healthy coral reef. Pantini Strait is the famous channel full of anthias around spectacular reefs. Bacan islands are home to stunning canyons and land tours.

We believe this region is unlike any other: Halmahera is one of the best scuba destination of all the Indonesian Archipelago.

Smooth preparation to fly to Manado -Indonesia - during Covid-19 time

	The Guest(s)	The agent	Wallacea Dive Cruise
Visa	<p>Send to the agent the following documents for the Visa application:</p> <ol style="list-style-type: none"> 1. Diving organisation on MSY SEAHORSE

Number of dives (minimum 36/37)

- 1 Dive the day of departure
- 3 dives / day every day of the cruise
- 5 Night dives.
- 1 dive the day before disembarking, maybe 2 according to your flight schedule (24h/No FLY).

Schedule & standards

- 1st dive: 07:00am
- 2nd dive: 10:30am
- 3rd dive: 02:30pm
- Night dive: 06:30pm
- Dive time: 60 minutes
- Maximum Depth : 35 meters
- Dives into the safety curves
- Systematic safety stop

Due to the large number of dives and the remoteness of the location, we urge divers to stay within the safety curve, to comply with a maximum depth of 35 meters, and to systematically perform a safety stop.

Depending on the guests dive experience, aspirations (photography, macro, etc), and eventual use of nitrox (free for certified divers), the cruise director will arrange the diving groups. These groups are made up of four divers and a dive guide. The dive guides are rotating on a daily basis. Each diver is given a dive tank (DIN & INT available, no need for adapters) and a single location for the duration of the cruise.

A briefing will be conducted by the director of cruises or one of the guides before each dive. It will provide guidance on the site topography, depths, currents and potential hazards, as well as on marine life and the species represented.

The staff carries your tank between the MV Ambai and the dinghies and back to the dinghies, tanks are disposed in slots and the guide will help you to gear just before to roll back for the dive.

Identification books of flora and local fauna are available on board, and the dive guides or the skipper will always help you to identify the strange animal you just saw underwater!

* There are some dive equipment to rent on board: However, all sizes are not necessarily available, so please book for it before the cruise.

* Our cruises are open to divers Padi Advanced Level 2 or equivalent with at least 50 dives logged. Less experienced divers can also participate with a specific supervision that have to be arranged before the cruise.

* An insurance covering medical evacuation and diving accidents is highly recommended. We will request the participants to fill up on board a statement of fitness for the dive activities.

*We will ask you to carefully respect the fauna and flora: have adequate buoyancy to avoid touching the substrate or break any corals; do not touch the animals, do not collect anything; do not harass wildlife to photography and moderate the number of flashes you impose on them. The use of gloves is not allowed.

*The divers should always carry a marker buoy.
